We Want to Learn From You...

Creative Expressions for research purposes involves ethical use of photography, art, spoken word, dance, etc., to promote positive social change in a way that allows for you to tell your own story.

During the first focus group, you will be asked to engage in a creative expression of your choosing based on 6 different themes about policing and police violence in the Deaf community. We will provide you with the resources to do so. During the second focus group, you will be asked to choose which creative expression you want to share with the group. We will hold a group discussion based on what we share to learn more about the impacts of police violence in the Deaf community through your shared creative expression.
